From corporate professionals to curious students, homemakers to survivors — we train every kind of voice to rise with confidence, clarity, and ethics.

Backed by our signature formula-based method, each session is more than training — it's transformation.

INDIA'S FIRST PSYCHOLOGY-DRIVEN PUBLIC SPEAKING SCHOOL

🌟❤️ Founder's Message — From Yashica Krishna

"You've already come out of the womb. Now, break the shell."

Why let your thoughts be trapped in your mind?

Why let your words be arrested in your mouth?

You don't just need to speak—you need to own your voice"

I started Red Dot Academy not with big money, but with a big mission — to make public speaking the most human, most accessible, and most transformative skill anyone could build.

I've seen what a voice can do. It can rebuild shattered confidence, heal past trauma, create leaders, and bring communities together. And I want every learner — from a child in a remote school to a woman restarting her career — to feel this power.

We're not here to perform.

We're here to break shells, free words, and lead with our voices.

Because in a noisy world, the voice that's real wins.

Join us—speak up, speak with courage, and start now..
